

TRANSOLAR™

from ESENNAR

PRODUCT RANGE

For SOLAR

- Multiwinding Transformers
Upto 5 MVA of 33 kV class

For POWER

- Upto 31.5 MVA of
132 kV class

Why ESENNAR ?

- 16 Years young organization with "World Class Manufacturing Facilities"
- About 10,000 transformers are operating seamlessly across the country
- An ISO 9001, ISO 14001 & OHSAS 18001 Certified Organization
- Engineered Solution provider of transformers for solar applications
- Excellent operation reliability
- Complete in-house 3D design facility
- One of its kind fully Automated Test Lab
- Guaranteed after sales service network covering entire nation
- Widely approved by all the major organizations / PSU's / Consultants & EPC's

SALIENT FEATURES	BENEFITS
Possibility to have two, three or four different windings on the low voltage side	Can be used by more inverters at the same time
Increased margin for core over excitation, withstanding high magnetizing inrush current	Prevent core saturation
Increased margin for core over excitation, withstanding high magnetizing inrush current	Increases the overall efficiency of plant
Electro Static Shield	Provides a path to ground for any residual resonance, as result of harmonics
Uninterrupted Performance	Trouble free operation, Reliable
Life time guarantee on Transformer Losses	Assured quality and confidence
Supervision of 'Erection and commissioning' done by our highly qualified service engineers at your site	Assured expertise and hence trouble free operation
ALL INDIA Sales & Service Network	Quick Response and professional after sales service help on 24x7 basis

Solar Transformer company of The Year
